

# THREATDOWN ADVANCED

When “Good Enough” is NOT Enough

## ORGANIZATIONS NEED BETTER PROTECTION IN A SINGLE, EASY-TO-USE PACKAGE THAT WON'T BREAK THE BANK

Cyberattacks aren't slowing down. In 2022, ~85% of organizations experienced at least one successful cyberattack, ~40% experienced six or more, and nearly three-quarters (~70%) expect to get hit during the coming year.<sup>1</sup>

### CHALLENGES

- ✓ **Too many attacks are successful:** 70% of organizations bore the brunt of ransomware last year<sup>2</sup>
- ✓ **Threat actors linger too long:** 277 days on average to identify and contain a breach<sup>3</sup>
- ✓ **80% of organizations** have suffered an exploit attempt on a known vulnerability<sup>4</sup>
- ✓ **Multiple point solutions increase cost and complexity:** 55 cybersecurity tools on average that organizations have deployed<sup>5</sup>

### THREATDOWN ADVANCED – BENEFITS

Purpose-built for resource-constrained organizations, **ThreatDown Advanced** delivers superior protection in a single solution that's easy to manage at a price that makes sense.

#### Improve security

- **Attack detection** through award-winning technology that features suspicious activity monitoring, freeform threat hunting, and Ransomware Rollback
- **Accelerated response** through patent-pending technology that continually scans alerts, escalating only the most critical with clear guidance on recommended response actions
- **Threat prevention** with multi-vector protection that won't slow your devices
- **Attack surface reduction** with vulnerability scanning and patching processes that run as scheduled or ad hoc as well as application blocking to stop malicious and unwanted applications from running

#### Reduce complexity

- **Centralized management** via cloud-based console with user-friendly interface that eliminates the need to learn multiple consoles—even when adding security capabilities
- **Single lightweight agent** that deploys in minutes and works across all ThreatDown products
- **Device visibility** with color-coded cues for at-a-glance security status
- **Auto remediation** via proprietary Linking Engine that finds and automatically removes artifacts, changes, and process alterations that malware leaves behind (and the other guys miss)

## Maximize value

- **Fastest implementation** validated by the G2 Fall 2023 Implementation Index, which shows that our suite has the shortest go-live time of all competitive solutions
- **Easiest to manage** validated by the G2 Fall 2023 Usability Index, which awarded our suite “Easiest to use” for its ease of administration and use
- **Best ROI** validated by the G2 Fall 2023 Results Index, which awarded our suite “Best estimated ROI” of all competitive solutions
- **Best value** for one bundle, one agent, one console, and one trusted partner

## THREATDOWN ADVANCED – FEATURES

- **Endpoint Detection and Response:** Award-winning solution that provides continual active detection and response, suspicious activity monitoring, integrated cloud sandbox, endpoint isolation, Ransomware Rollback, MITRE ATT&CK mapping, and Active Response Shell
- **Managed Threat Hunting:** Proactive automated threat hunting correlates EDR alerts and notifications against external and internal threat intelligence feeds, prioritizing all and escalating only the most critical with clear, step-by-step, response guidance
- **Endpoint Protection:** Multi-vector prevention built on layers of technology that stop signature-based, fileless, and zero-day attacks before they infiltrate your systems
- **Vulnerability Assessment:** Run scans on demand or on schedule to search for operating system and application vulnerabilities
- **Patch Management:** Automate the patching process to lock up potential access points
- **Application Block:** Easily block unauthorized programs to enforce acceptable-use policies
- **Incident Response:** Built on our proprietary Linking Engine that not only removes malware executables but finds and automatically eradicates all associated files and changes to prevent re-infection

**ADVANCED PROTECTION, EASIEST TO USE, BEST VALUE.**  
**Call today to get started.**
