

THREATDOWN CORE

When “Good Enough” is NOT Enough

ORGANIZATIONS NEED BETTER PROTECTION IN A SINGLE, EASY-TO-USE PACKAGE THAT WON'T BREAK THE BANK

Cyberattacks aren't slowing down. In 2022, ~85% of organizations experienced at least one successful cyberattack, ~40% experienced six or more, and nearly three-quarters (~70%) expect to get hit during the coming year.¹

CHALLENGES

- ✓ **Too many attacks are successful:** 70% of organizations bore the brunt of ransomware last year²
- ✓ **80% of organizations** have suffered an exploit attempt on a known vulnerability³
- ✓ **Multiple point solutions increase cost and complexity:** 55 cybersecurity tools on average that organizations have deployed⁴

THREATDOWN CORE – BENEFITS

Purpose-built for resource-constrained organizations, **ThreatDown Core** delivers superior protection in a single solution that's easy to manage at a price that makes sense.

Improve security

- **Threat prevention** with multi-vector protection that won't slow your devices
- **Attack surface reduction** with vulnerability scanning that run as scheduled or ad hoc
- **Application blocking** to prevent unauthorized programs from executing on endpoints

Reduce complexity

- **Centralized management** via cloud-based console with user-friendly interface that eliminates the need to learn multiple consoles—even when adding security capabilities
- **Single lightweight agent** that deploys in minutes and works across all ThreatDown products
- **Device visibility** with color-coded cues for at-a-glance security status
- **Auto remediation** via proprietary Linking Engine that finds and automatically removes artifacts, changes, and process alterations that malware leaves behind (and the other guys miss)

Maximize value

- **Fastest implementation** validated by the G2 Fall 2023 Implementation Index, which shows that our suite has the shortest go-live time of all competitive solutions
- **Easiest to manage** validated by the G2 Fall 2023 Usability Index, which awarded our suite “Easiest to use” for its ease of administration and use
- **Best ROI** validated by the G2 Fall 2023 Results Index, which awarded our suite “Best estimated ROI” of all competitive solutions
- **Best value** for one bundle, one agent, one console, and one trusted partner

THREATDOWN CORE – FEATURES

- **Endpoint Protection:** Multi-vector prevention built on layers of technology that stop signature-based, fileless, and zero-day attacks before they infiltrate your systems
- **Vulnerability Assessment:** Run scans on demand or on schedule to search for operating system and application vulnerabilities
- **Application Block:** Easily block unauthorized programs to enforce acceptable-use policies
- **Incident Response:** Built on our proprietary Linking Engine that not only removes malware executables but finds and automatically eradicates all associated files and changes to prevent re-infection

ADVANCED PROTECTION, EASIEST TO USE, BEST VALUE.
