

Better videos in less time!

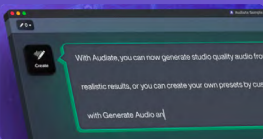

Camtasia + Audiate is the magic combination that helps you edit your videos up to **40% faster**.

Experience the perfect text-based audio and video editing workflow. Camtasia + Audiate helps you edit videos faster and sound better than ever before. Text-based audio editing makes it easy for anyone to edit audio, and saves even professionals tons of time.

Text-Based Editing

Lightning fast transcription turns your audio and video into plain text you can use to edit and create captions. Instantly detect and remove hesitations and filler words.

Generate New Audio

Go from idea to audio with ease. Generate new audio by recording your voice or by turning your script into AI voiced audio in a variety of voices, languages, and styles.

Enhance Audio Quality

Improve your audio with easy-to-use audio effects and noise removal that are designed to enhance your voice and solve common audio issues.

Sync Your Edits

Camtasia and Audiate work together to stitch your video timeline back together after making all of your cuts and edits, keeping everything in sync.

Audiate is an affordable add-on to your Camtasia license that just makes sense! Empower your creators to produce better videos at a much faster pace. Schedule a call with your account manager to find out more about Audiate or visit www.techsmith.com/camtasia-audiate.html
