THREATDOWN BUNDLES

When "Good Enough" is NOT Enough

ORGANIZATIONS NEED BETTER PROTECTION IN A SINGLE, EASY-TO-USE PACKAGE THAT WON'T BREAK THE BANK

Cyberattacks aren't slowing down. In 2022, ~85% of organizations experienced at least one successful cyberattack, ~40% experienced six or more, and nearly three-quarters (~70%) expect to get hit during the coming year.[1]

CHALLENGES

- **Too many attacks are successful:** 70% of organizations bore the brunt of ransomware last year[2]

- **Threat actors linger too long:** 277 days on average to identify and contain a breach[3]

- **Multiple point solutions increase cost and complexity:** 55 cybersecurity tools on average that organizations have deployed[4]

- **IT/security teams are understaffed:** 62% of organizations lack sufficient cybersecurity staff[5]

THREATDOWN CORE

Core delivers comprehensive prevention against malware, zero-day threats, and more. **Core** includes award-winning technologies that appreciably simplify endpoint protection management

THREATDOWN ADVANCED

Advanced delivers superior protection in a single, easy-to-use solution at a price that makes sense. Purpose-built for organizations with small security teams with limited resources, **Advanced** includes award-winning technologies that appreciably simplify endpoint protection management.

THREATDOWN ELITE

Elite delivers comprehensive protection in a single solution that offers unparalleled ease of use at a price that makes sense. Purpose-built for organizations with small (to non-existent) security teams that lack the resources to address all security alerts, **Elite** includes award-winning technologies and 24x7x365 expert-managed monitoring and response

THREATDOWN ULTIMATE

Ultimate delivers the most comprehensive protection across the attack cycle from superior attack surface reduction to fully-managed 24x7x365 prevention, detection, response, and full remediation.

Improve security				
Attack detection through award-winning technology that features suspicious activity monitoring, freeform threat hunting, and Ransomware Rollback		●	●	●
Accelerated response through patent-pending technology that continually scans alerts, escalating only the most critical with clear guidance on recommended response actions		●	●	●
Threat prevention with multi-vector protection that won't slow your devices	●	●	●	●
Attack surface reduction with vulnerability scanning and patching processes that run as scheduled or ad hoc	●*	●	●	●
24x7x365 endpoint monitoring and response by our team of cybersecurity experts with 150 years of collective experience in threat hunting, forensic analysis, and incident response			●	●
Security that only gets better with age because our team of experts apply their findings to refine security techniques for faster, more precise detections and alerts over time			●	●
Application blocking to prevent unauthorized programs from executing on Windows endpoints	●	●	●	●
Enhanced safety and productivity by restricting whole website categories of malicious sites and unwanted ones not compliant with employee code of conduct				●
Reduce complexity				
Centralized management via cloud-based console with user-friendly interface that eliminates the need to learn multiple consoles—even when adding security capabilities	●	●	●	●
Single lightweight agent that deploys in minutes and works across all Malwarebytes products	●	●	●	●
Device visibility with color-coded cues for at-a-glance security status	●	●	●	●
Auto remediation via proprietary Linking Engine that finds and automatically removes most malware executables and associated artifacts, changes, and process alterations		●	●	●
Security Operations Center (SOC) in a box with our technologies managed by our experts to augment your team's efforts			●	●
Maximize value				
Fastest implementation validated by the G2 Winter 2023 Implementation Index, which shows that our suite has the shortest go-live time of all competitive solutions	●	●	●	●
Easiest to manage validated by the G2 Winter 2023 Usability Index, which awarded our suite "Easiest to use" for its ease of administration and use	●	●	●	●
Best ROI validated by the G2 Winter 2023 Results Index, which awarded our suite "Best estimated ROI" of all competitive solutions	●	●	●	●
Best value one bundle, one agent, one console, one SOC (Ultimate and Elite), and one trusted partner	●	●	●	●

FEATURES

	Core	Advanced	Elite	Ultimate
Endpoint Detection and Response: Award-winning solution that provides continual active detection and response, suspicious activity monitoring, integrated cloud sandbox, endpoint isolation, Ransomware Rollback, MITRE ATT&CK mapping, and Active Response Shell		●	●	●
Managed Threat Hunting: Automated alert scanning that correlates EDR data against external and internal threat intelligence feeds, prioritizing threats and escalating the most critical with clear, step-by-step, response guidance		●	●	●
Endpoint Protection: Multi-vector prevention built on layers of technology that stop signature-based, fileless, and zero-day attacks before they infiltrate your systems	●	●	●	●
Vulnerability Assessment: Run scans on demand or on schedule to search for operating system and application vulnerabilities	●	●	●	●
Patch Management: Automate the patching process to lock up potential access points		●	●	●
Incident Response: Built on our proprietary Linking Engine that not only removes malware executables but finds and automatically eradicates all associated files and changes to prevent re-infection	●	●	●	●
Managed Detection and Response: 24x7x365 monitoring by our experts, who analyze, respond to, and remediate threats on your behalf (even those that escape technological detection)			●	●
Application Block: Easily block unauthorized programs to enforce acceptable-use policies	●	●	●	●
31-day lookbacks: Our team of experts search for Indicators of Compromise to stop attacks and refine detections and alerts going forward			●	●
Website content filtering: Block whole categories of inappropriate, suspicious, and malicious websites				●
