

# Lumio™

Save teachers time and help them engage **every student**, in and out of the classroom.

With interactive activities, games, group workspaces, and formative assessment built right in, Lumio can help save costs by **reducing the number of software offerings you support** and the amount of training required.

## Why Lumio?

### Privacy and Security

Feel safe knowing that privacy and security are at the core of our product design. With a commitment to never sell your data, Lumio's user data is hosted using best-in-class data centers located in the United States.

Lumio is compliant with local and US federal legislation, including but not limited to,

- FERPA
- COPPA
- SOPPA
- GDPR

For our full Privacy Policy, please visit [golumio.com](https://golumio.com)

# Why Lumio?

## Easy to implement

Integrations with Google, Microsoft, Canvas, and Schoology make for easier deployments and allow teachers to use Lumio within their existing workflows.

Automatically and securely manage teacher accounts using lists from Google, Microsoft, or ClassLink through OneRoster platforms.

## In-product onboarding and training

Built-in quick-train videos and onboarding resources give teachers the information they need where and when they need it. This helps teachers quickly leverage the value of Lumio, and schools realize greater return-on-investment.

## AI Assist

Save teachers' time with the ability to use AI to generate standards-aligned questions and answers for quiz-based activities, including Response, Monster Quiz, Team Quiz, Game Show, and Speedup.

 Generate

**Save costs and simplify your tech approach  
with a tool that lets teachers do it all**
