

VIVI DEVICE ALERTS

In an Emergency, No One Misses the Message. Every Screen Responds.

Introducing Device Alerts, a new product from Vivi, the essential operating system for connected learning spaces. With this supplemental site license, you can deliver full-screen, acknowledgment-required alerts instantly to every staff computer. *Because when every second counts, every screen counts.*

Instant Visibility

Full-screen alerts appear on every staff desktop and laptop. They're impossible to miss, even when displays aren't nearby.

Built-in Accountability

Every alert requires acknowledgment. See exactly who saw it, when they responded, and who still needs to.

Easy Deployment

Add Device Alerts to your existing Vivi setup with no new hardware and simple SSO provisioning.

Complete Coverage

Now your alerts reach every corner of your school — classrooms, offices, labs, and common areas.

The Next Step in Schoolwide Safety and Accountability

Schools already trust Vivi to keep their classrooms engaged, informed, and save. Now that same reliability can extend to every staff computer on your network.

It's everything schools love about Vivi Emergency Alerts, now extended to every screen.

Vivi Device Alerts make it possible to:

- ✓ Reach every staff member instantly; no matter where they are.
- ✓ Strengthen your district's emergency response and compliance posture.
- ✓ Simplify IT setup with seamless integration into Vivi Central.

Make Safety Impossible to Miss.

Affordable pricing at \$999 per site.
