

## Room Controls

Set a room as default to automatically join when the Vivi App starts, or save it to your quick access list.

## Share to Classroom Display

-  **Share Screen:** Press and hold to view options for split screen sharing.
-  **Share Window:** Select a single window to share.
-  **Share Camera:** Select a document camera or webcam to share.

## Clocks and Timers

Share a clock, stopwatch or timer on the classroom display.

## Screenshot

Capture a screenshot of the classroom display while sharing, annotate and share with your class.

## Play Content

Queue videos (ad-free!), PDFs, or Google Slides. Keep teaching while the video plays on the room display.

## Stream to Students

Start a livestream of your screen or whiteboard for students to watch on their devices.

## Advanced Features

-  **Guest Access:** Create codes for guests to share without a Vivi account.
-  **Settings:** Adjust stream performance, room options and preferences.

## Give Student Control

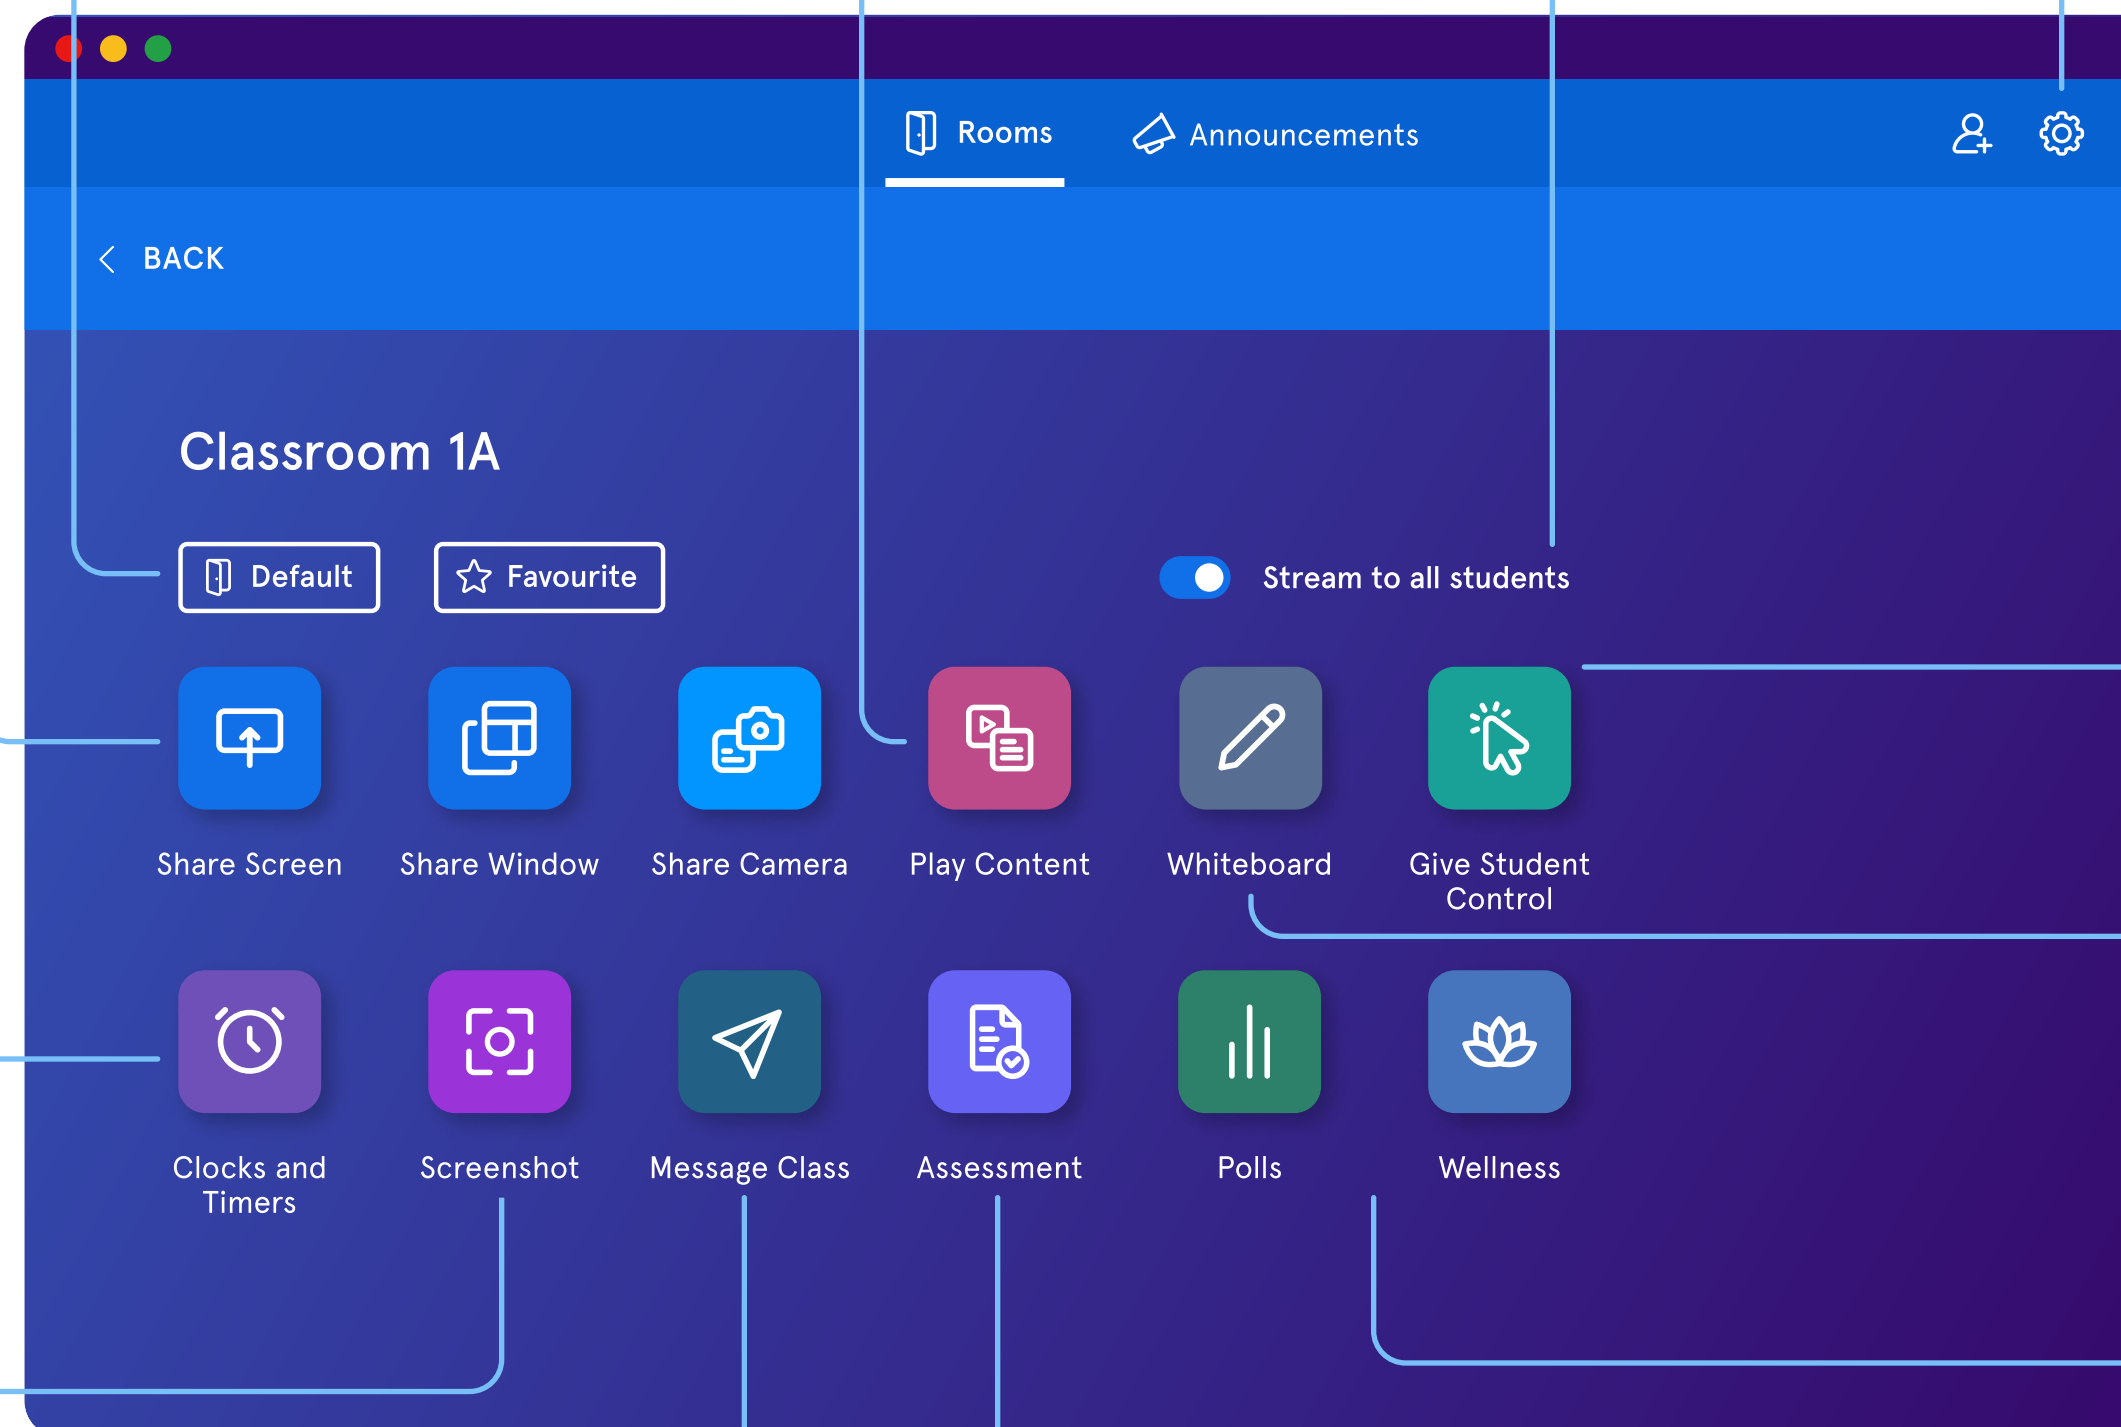

See which students are connected to the classroom and approve requests to share to the room display.

## Whiteboard

Annotate over a blank virtual whiteboard, or use images and templates as a base.

## Student Wellbeing

-  **Polls:** Check in on your class with emoji polls.
-  **Wellness:** Play Headspace meditations and breathing exercises.

## Message Class

Send messages and URLs to students connected to your classroom.

## Assessment

Test students with multiple choice, true/false, yes/no and freeform questions.
