

Centralize your district's technology infrastructure

Meet the complex needs of your district with in-depth reporting, robust customizations, and a user-friendly interface for both teachers and agents alike

Maximize your technology investments with **richer data** and **more visibility** into your assets' lifecycles

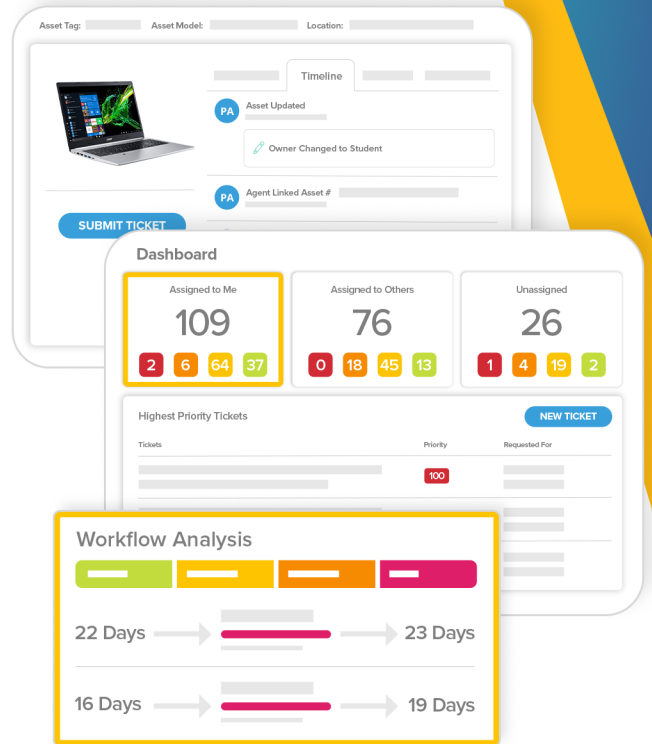

Build the system management platform tailored to your district with **robust customizations** and **premium customer support**

Ensure faculty and students can **easily submit tickets** and **report on assets** for operational efficiency with a **simple and user-friendly interface**

Seamlessly meet the needs of your district and centralize workflows with a service management platform **built specifically for K-12**

“The fact that Incident IQ was designed for schools shows through and through. It’s intuitive, and users are able to navigate the system on their own with very little training.”

PHIL LACEY
Director of Instructional Technology | Niles Township High SD - IL
